

SELF-CONTAINED UNIT

This self-contained power pack offers portable hydraulic power and can be mounted onto the trailer as the primary hydraulic power source. No need to worry or spend extra money on a fleet of trucks plumbed with PTO. It has a compact design with a skid frame allowing easy relocation with a forklift. Save time and fuel costs with a dependable Honda GX390 series engine that delivers 11.7 HP, 390cc, 6.5 GPM at 2200 PSI. Get yours on order today!
